

# QuIC at a Glance

Our **HISTORY**: Non-profit association established in 2021 by several key business actors – large enterprises, SMEs, startups, investors – from across Europe.

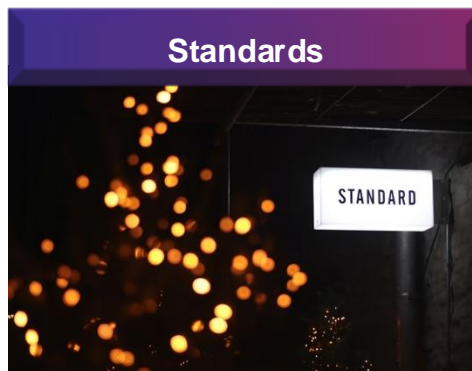

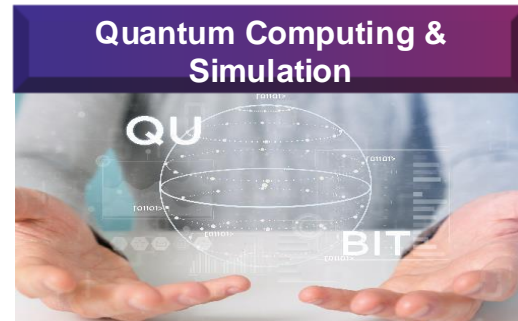

Our **MISSION**: grow and strengthen the quantum technology industry, and position Europe as a global leader of the sector.

Our **METHOD**: serve as a collaboration hub between researchers, industry leaders, investors and end-users.

# Work Groups & Expert Groups @QuIC

**Strategic Industry Roadmap** – Collective perspectives from all WGs and EGs. SIR is shared with European Commission and governments across Europe to inform quantum policies.

# QuIC's international leadership

## International Council of Quantum Industry Associations

Proud Founding member of **ICQIA**.

Fellow international members:

- QED-C (USA)
- QIC (Canada)
- Q-STAR (Japan)

## Trusted partner of the European Commission

QuIC supports the European Commission in its **bilateral international dialogues** with partners.

- United States of America
- Japan
- South Korea
- India

## Quantum Standardisation

QuIC acts as a bridge between its many Members and the international quantum standardisation committees:

- JTC-22 (Europe)
- JTC-3 (worldwide)

# QuIC – UK Quantum Tea Breaks

## QuIC Members <> UK

QuIC Members have the opportunity for individual, one-on-one meetings with UK government representatives.

## Mutual benefits

UK government gains awareness of European quantum ecosystem, and QuIC Members can showcase their work and growth plans in the UK and worldwide.

## Funding Opportunities

QuIC Members can help guide the UK Government's national quantum strategy and related missions.

# QuIC Business Community & Affiliates

## Quantum Business Community (QBC)

*Uniting all Europe-based quantum companies*

### Members

*European companies and research organisations w/ main HQ in Europe<sup>1</sup>.*

### Affiliates

*Subsidiaries of companies from like-minded countries based in Europe<sup>1</sup>.*

<sup>1</sup> Europe = EU + FO + IS + IL + LI + NO + UK + CH + TR

## QBC Benefits

- ◆ *Expand Networking Opportunities*
- ◆ *Enhance Access to Quantum-Related News and Contacts*
- ◆ *Increase Influence on the European and Global Stage*

# QuIC Membership Benefits

**Q-Expo:** QuIC's **global quantum gathering** that brings together key industry stakeholders such as business leaders, solution providers, researchers, and policymakers from around the world, ensuring attendees gain valuable insights, connections, and knowledge. The event features a dynamic Business Expo Day, followed by an insightful Plenary Day, providing unparalleled opportunities for learning, networking, and meaningful collaborations.

## Info Sessions

Information sessions on the **latest global developments** in connection with the quantum industry, **available for QuIC Members only**. Recent topics include export control regulations, global standardization efforts, and deep dives on critical enabling technologies.

## Matchmaking Sessions For Funding Calls

Matchmaking Sessions designed to help **QuIC Members find each other and form project consortia** for public funding calls. Sessions are **also organized with partner associations**, such as AENEAS (electronic components and systems community) in the context of the EU Chips Act. These are an exclusive benefit of QuIC membership.
